Age	4 years and older

- The WWW series has sold over 11 million copies in Germany
- WWW has been translated into 20 other languages
- With creative interactive elements, perfect for young, curious minds

### ABOUT THE SERIES

The WWW series stands out for its playful, enticing way of conveying just the information that kids want to know. Centered on who-what-how questions, the titles in the series explore subjects of great interest to young children. The thousands of questions children ask daily are answered by means of interactive elements, engaging illustrations, and age-appropriate texts. Because the lively illustrations convey so much, the books hold children's interest even without an adult to read the clear, friendly texts. WWW is ideally suited for preschool and kindergarten ages, for children 4 to 7 years old.

### CONTENT

Where do we come from? What goes on in our body? With the help of numerous illustrations and instructive texts this book explains very clearly the most important functions of the human body: eating, digestion, breathing, the skeleton and the circulation of blood. It not only answers questions about the physical body, but also addresses our emotions and makes curious for more information hidden behind numerous flaps.

### THE ILLUSTRATOR

Doris Rübel was born in 1952 and studied art pedagogy. After 10 years in education she began illustrating books, and for more than 20 years has devoted herself to writing and illustrating for children. Her first book to be published by Ravensburger appeared in 1990, and since 1998 she has been one of the key authors and illustrators for the popular "Why? Why? Why?" series.
