ABOUT THE SERIES

The WWW series stands out for its playful, enticing way of conveying just the information that kids want to know. Centered on who-what-how questions, the titles in the series explore subjects of great interest to young children. The thousands of questions children ask daily are answered by means of interactive elements, engaging illustrations, and age-appropriate texts. Because the lively illustrations convey so much, the books hold children's interest even without an adult to read the clear, friendly texts. WWW is ideally suited for preschool and kindergarten ages, for children 4 to 7 years old.

CONTENT

Visiting cows, chickens and pigs in their pens or sheep and goats while they graze all go to show that farmers have their hands full from morning to night. Machines help with work in the stable and on the fields, from the electric stall cleaner and automatic milking machines to a high tech combine harvester. This volume also introduces the unique characteristics of an organic farm. Realistic and informative, this book gives children a glimpse into the life and workings of a modern farm.
