ABOUT THE SERIES

The WWW series stands out for its playful, enticing way of conveying just the information that kids want to know. Centered on who-what-how questions, the titles in the series explore subjects of great interest to young children. The thousands of questions children ask daily are answered by means of interactive elements, engaging illustrations, and age-appropriate texts. Because the lively illustrations convey so much, the books hold children's interest even without an adult to read the clear, friendly texts. WWW is ideally suited for preschool and kindergarten ages, for children 4 to 7 years old.

CONTENT

The beloved topic of vehicles from a new perspective: this book introduces record-breaking vehicles, at construction sites, in the forest, on the street, in the water and in the air. Some of the fascinating machines include the bucket wheel excavator used in mining, giant cranes, container ships of up to 400 meters as well as the largest passenger airplane in the world, the A380.
