ABOUT THE SERIES

The WWW series stands out for its playful, enticing way of conveying just the information that kids want to know. Centered on who-what-how questions, the titles in the series explore subjects of great interest to young children. The thousands of questions children ask daily are answered by means of interactive elements, engaging illustrations, and age-appropriate texts. Because the lively illustrations convey so much, the books hold children's interest even without an adult to read the clear, friendly texts. WWW is ideally suited for preschool and kindergarten ages, for children 4 to 7 years old.

CONTENT

This clever lift-the-flap book provides children with age-appropriate answers to questions such as: "Where do babies come from?" "Why are there boys and girls?" and "How are babies born?"
