ABOUT THE SERIES

An exciting crime story takes readers on a trip into the distant past. The stories in this series are based on an intriguing event in history or an authentic historical criminal case. The main characters are Julian and his two friends Kim and Leon, as well as the cat Kija, who has been traveling to the past with them since their very first time travel adventure in ancient Egypt. Kija has accompanied the three friends from one adventure to the next ever since, even helping with their investigations. All three of the kids have a great interest in history, which is why they return to the old monastic library of Siebenthann again and again. This library is not only a great resource for their search for new information about their favorite subject (history), it also contains a mysterious room called the Tempus. In it, time lives. There are thousands of doors with years inscribed on them, and when Julian, Kim and Leon pass through one of them, they travel to that place and time. Once arrived in the past, the three friends find themselves dressed in the style of the era and can understand the language spoken around them. Their time travels last only a few seconds in "real time", even if the historical adventure lasts much longer. Their absence isn't noticed in the present.
