The stars are aligning for seventeen-year-old Ivy. Thanks to her mother's new job, she's landed a scholarship for St. Mitchell, a high society private school. This is a once-in-a-lifetime opportunity to make her dream of becoming a lawyer come true. Initially intimidated by her classmates, New York, and the life of the upper crust on the Upper East Side, in the first weeks Ivy relies on her new friend Kelly and especially Heath, another student at St. Mitchell. She and Heath experience a summer full of romance and heart-throb before their senior year begins – and everything changes.

With senior year begins The Game. Rumors about this St. Mitchell's tradition abound, and have frightened Ivy ever since she first heard about it. The Game means blackmail, lies, and intrigues – a time in which no one knows who they can trust. The winner knows the sins and secrets of everyone who plays, and anyone who gets caught is expelled.

Ivy, worried about her scholarship and her future, tries with all her might to stay clear of The Game. But when Heath suddenly starts giving her the cold shoulder and the leaders of the game exert more and more pressure on her, she is quickly caught up in a swirl of dares, love, and betrayal from which there is no turning back.
