A new, humorous series that takes place in a dream setting of an idyllic farm and touches on themes including friendship, family, and adventure.

### ABOUT THE SERIES

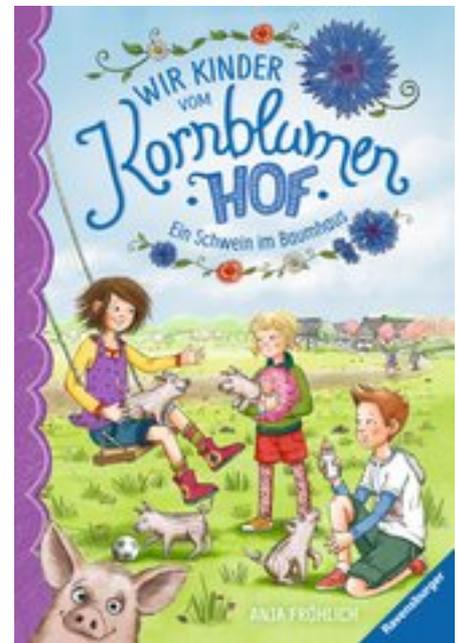

A big farm near a small city, with a large, beautiful lake nearby. The parents of the main characters are siblings, or related by marriage. This organic farm complex also has a farm shop and space for animals to live out their last days, and visitors can come experience their holidays on the farm.

### CONTENT

Naughty spring piglets: seven piglets all at once! The woolly Mangalica mama pig, Miss Stinkewitz, is completely overwhelmed. Of course Mai and the other children of Cornflower Farm are delighted to help take care of the fuzzy little babies. But then the dopey Abraxas shows up with his gang of guys, and wants to have one of the piglets! Not a chance, if Mai and her cousins have anything to say about it. In their secret treehouse headquarters, they devise a plan to get rid of the intruders.

### THE AUTHOR

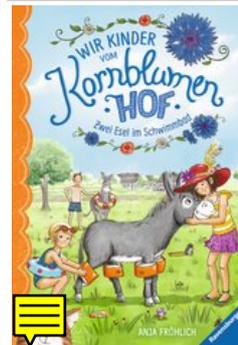

Anja Fröhlich has been writing children's books for twenty years and loves marvelling at things for professional reasons alone. Since her son is grown and her husband is a travel journalist, she gets the chance to do that in the remotest regions of the world – just like the donkey and the squirrel. But Anja enjoys being home in Cologne just as much, where she has lived since studying film studies, art history and psychology.
