### ABOUT THE SERIES

Sina, Tori, Myriam, Hannah, Ayla and Juliana meet each other every free minute they can at the Sunshine Ranch, a paradise for horses and other animals run by Sue, a former actress. The friendship between the girls at the barn and their love for the animals is put to the test when strange events and underhanded scheming come into play.

This series with its potent combination of horses, mystery and love launched with two titles in Fall 2012 and continues with two more in 2013.

### CONTENT

Sue's mother in the USA is sick and needs help, but who should take care of the Sunshine Ranch while she's gone? For the six horse-crazy girls there's no question: they'll take care of the farm. At first they divide the work among themselves and everything goes well. But then one day the pregnant mare Becky simply vanishes. Has she been stolen? Tori and the other girls feverishly search for her. The suspicious owner of a new horse stable proves to be innocent, and the trail leading to Mr. Muller, who works for a pharmaceutical company that does experiments with animals, seems to be a dead end. Finally, with the help of her classmate Jonas, Tori finds out that Mr. Muller's son Hans gave them a false alibi. The solution to the case: Hans kidnapped Becky because he was afraid his father wanted to buy her and use her for experiments. The girls are able to find Becky in time, just before her foal is born.
