CONTENT

Flo finally wants to go to the loo like a grown-up. But at first that's not that easy. The toilet is much too high up for the little bear, and where is the flush, anyway? Step by step, Flo familiarises himself with the toilet, and at the end of the day, he proudly sits on the toilet all by himself for the first time.

The book comes equipped with a sound module. On each double page, children can press the flush - an original way of introducing this important topic.
