#### ABOUT THE SERIES

There are five different sounds integrated into the books of this series. You can press the first button through a hole in the cover even before opening the book. Just turn on the battery with the switch on the back cover.

#### CONTENT

What does a piano sound like, and what sounds does a drum set make? Each instrument sounds different – and that is exciting for even the youngest children!

This fascinating soundbook for children 18 months and older introduces some of the captivating sounds that musical instruments make. And that is not all: at the same time, children can search for lots of familiar things in the detailed scenes, and follow many little stories throughout the pages. On each page, gently pressing a button produces a sound: Grandpa plays a few notes on the piano, Mama on the flute, and in the park young Sophie is amazed by a cellist.

#### THE AUTHOR

Frauke Nahrgang was born in 1951 in Stadtallendorf, where she lives today with her husband and two children. She has been working as a primary school teacher since 1976 and enjoys teaching school beginners most of all. At school she began to write texts for beginners, and she has been writing children's books since 1987. Frauke Nahrgang watches children very carefully and is interested in how they make contact, talk and communicate with each other. She transfers these observations strikingly into the stories in her picture books.

#### THE ILLUSTRATOR

Guido Wandrey, born in 1959, studied graphic design and has already published many successful picture books. In his images, he makes a point of including special little details just waiting to be discovered.
