Age	18 months and older

- 5 large, sturdy sliding elements bring a construction site to life
- Interactive board book with a friendly character serving as guide
- Conveys first information about construction sites appropriate for the target age group

### ABOUT THE SERIES

Large, sturdy sliding elements integrated into the interactive board books in this series invite toddlers to take an active role in discovering various aspects of their environment.

### CONTENT

When Max the mole sticks his head out of his heap of earth, he finds himself in the middle of a construction site. He then starts to discover the construction site, helps the construction site workers and even gets to ride an excavator.

### THE AUTHOR

Sandra Grimm began her career as an editor and is now a freelance author. Her background as a certified teacher offers a sound basis for her books for children and teenagers. She has three young children with whom she can test all her fun ideas.

### THE ILLUSTRATOR

Johanna Fritz always wanted only one thing: to draw. She studied at the Berlin Technical College of Art. Already during her studies, Johanna Fritz received assignments as a cartoonist and children's book illustrator. She now works successfully as a freelance illustrator and also as a coach and mentor for other illustrators. On Facebook, her group is called "Successful Illustrator." and her online course is called "Become a successful illustrator". Johanna Fritz lives in Stuttgart with her husband and two small daughters.
